How do I note-up Canadian cases?

Look up the Canadian case in Westlaw.
E.g. Find R v Parks (1992) 2 S.C.R. 871

Launch Westlaw
In the Westlaw (SMU) menu tab, tick **Canada All Case Law**

Enter the case name or citation in the search box at the top of the page and click Search.
When you have located the case, you may have to click on the **English** link to get the English translation of the case. Then click on the KeyCite icon or click on the Related Info tab.

1. Click on the coloured flag. It is called a Keycite flag.

This will give the history of the case in the reading pane on the right.

This will give you a definition for the coloured flag.

Click on **Citing References** for details on the subsequent treatment of the case. See next screen.
The **Citing References** section will give you the treatment of the case ‘R v Parks’ in subsequent cases.

For a description of the different Key Cite icons, click on **KeyCite Canada**
