LRN - Legislation

EXPLANATORY STATEMENT

This Bill seeks to reform and update the law where decisions need to be made on behalf of persons lacking capacity. The Bill will govern decision-making on behalf of persons lacking capacity in specified conditions, both where they lose mental capacity at some point in their lives (for example as a result of dementia or brain injury) and where the incapacitating condition has been present since birth. It covers a wide range of decisions, on personal welfare and financial matters and substitute decision-making by attorneys or court-appointed “deputies”, and clarifies the position where no such formal process has been adopted. The Bill provides recourse, where necessary, to the High Court which has power to deal with personal welfare and financial decisions.
